SUMMARY

Performance-driven Java Software Developer with 2+ years of experience in designing and developing scalable applications using Spring and Spring Boot. Skilled in writing clean, efficient code and solving complex problems. Passionate about continuous learning, innovation, and delivering high-impact software solutions.

SKILLS

Languages: Java, Python, C, HTML, CSS, JavaScript, Angular

- ☒ Frameworks & Libraries: Spring / Spring Boot (AOP, DAO, ORM, Web MVC) , Node.js,
- ☒ Web Technologies: RESTful APIs, Microservices, Servlets, JSP
- ☒ Databases: MySQL, JDBC, JPA
- ☒ Concepts: Basic DSA, MVC Architecture
- ☒ Tools & IDEs: Eclipse, NetBeans, Spring Tool Suite (STS), VS Code, Apache Tomcat, MS Office
- ☒ Version Control & Deployment: Git, CI/CD ,Docker
- ☒ Communication & Client Interaction

WORK EXPERIENCE

Software Developer

Safedot ESolutionsPvt. Ltd., Panchkula

July 2024 – Present

- ☒ Developed and maintained modules to enhance real-time crime tracking and data sharing, contributing to the modernization of police operations in India.
- ☒ Worked on critical modules such as Parcha12, Pendency Report, Hygienious Crime Report.
- ☒ Dynamic Dashboard Report, improving case tracking, data accuracy, and report generation.
- ☒ Designed and developed RESTful APIs using Spring Boot, enabling seamless communication between frontend and backend systems for real-time data access and integration.
- ☒ Optimized backend performance and implemented modular code using Java and Spring Boot, resulting in faster response times and easier maintenance across critical modules.

Internships

SKILLDZIRE

11/2023 - 04/2024, Full stack web development using java.

- ☒ simple bank manegement system using spring April 2024

- ☒ Developed a CRUD-based banking application using Spring Boot and Spring MVC.
- ☒ Implemented core features like account creation, balance check, deposit, and withdrawal with proper validation and error handling.
- ☒ Integrated MySQL for backend data storage and used RESTful APIs for client-server communication.

Internships

Talent shine

05/2023 - 11/2023

Email Spam Detection.

- ☒ Built a machine learning model to classify emails as spam or not spam using Python.
- ☒ Used natural language processing (NLP) techniques for text preprocessing and feature extraction.
- ☒ Achieved high accuracy with algorithms like Naive Bayes and Logistic Regression.

EDUCATION

Bachelor of Technology.

S.V.C.E.T /Etcherla,Srikakulam (AP)

08/2020 - 04/2024, Vizag, india

HigherSecondary Education

Government Inter College, Bihar

2017 – 2019

CERTIFICATIONS

- ☒ Certificate in Full Stack Web Development using Java– SkillDzire (2024)
- ☒ Certification in Machine Learning with python - Talent Shine (2023)

ADDITIONAL EXPERIENCE WITH PERSONAL PROJECTS

- ☒ Sign Recognition and Voice Conversion for Deaf and Mute- (12/2023 – 04/2024)
- ☒ Create a personal portfolio website. (06/2024 - 07/2024) URL : http://surl.li/nzwkc_
- ☒ Build a simple e-commerce site with product listings and a checkout system software. (07/2024)
- ☒ SQL_Music_Store_Analysis. (08/2024)for providing one to one service support.
- ☒ Hospital Management System (HMS) (10/2024).
- ☒ Freelance Marketplace.
